

# Reliance Connects With You

## Fiber vs Copper

Although Fiber optics has been around for a while now, it has never been this accessible. After years of laying cable, it is finally available to most in our community. This is the Internet we have all been waiting for! It's no secret we are living in a faster world than we were a decade ago. Fiber is capable of providing high speed Internet to any home or business.

So is Fiber better than Copper? You betcha it is! Faster transfer speeds, minimal loss of information and higher resistance to damage. Fiber is the best solution for meeting the increase in demand for faster speeds, compounded with the increase in the number

of devices in the home and office. If it's not available in your area today, it likely won't be long before it is!

Reliance Connects has been working round the clock to offer all customers Fiber Internet. If you are interested in learning more about Fiber, please don't hesitate to call our office anytime!

**Switch to 25Mbps or higher...**

**...and receive \$10 off for 3 months!**

## Fiber Updates

### Estacada area gets more fiber

**After several years of laying Fiber Optic cabling, it is available to more customers than ever before in our community. Five years ago we offered Fiber to little more than the Estacada City Limits. We've since expanded! Here is a complete list of areas that now have access to Fiber and current Fiber projects.**

# Wireless router got you frustrated?

## Ask about Managed Wi-Fi

Let us take the worry and hassle out of figuring it out with Managed Wi-Fi service from Reliance Connects. Ask about upgrading to a powerful AC mesh router.

-Need to cover more area? We have extenders too!

-Save money with worry-free replacement.

-Save time, we manage it from the office, so you don't have to lift a finger!

Dead or slow zones will be gone!

## What Our Customers Say....

"I'm glad to have a local Internet provider who is responsive to concerns! Last fall we started having trouble with our internet speed and after troubleshooting some things inside our house Reliance installed fiber to our home and we have been doing great ever since. With 2 college students and a high-schooler in the house it is also great to have unlimited data! I need that peace of mind!"

-Melanie W.

"Customer service still outstanding and repairman showed up quickly and fixed problem. Would highly recommend them! Polite, understanding, and quick! Thank you."

-Jane Z.
